Eastern States.

BOSTON, Oct. 27.—A quantity of nitro-glycerine was exploded last night, under a window of the Harvard College building, and several hundred panes of glass were shattered. It was a narrow escape from more serious damage. Some of the students, it is said, were the perpetrators.

NEW YORK, Oct. 29.—The "World" says the rumors about the intentions of the Panama Company are explained. The directors of that company have unanimously resolved that it is the company's interest to have a line of its own from New York to San Francisco, and at yesterday's meeting a committee—C. K. Garrison, John M. Burke, C. G. Franklyn, with President Park—was appointed to consider ways and means for carrying the project into effect. This information was withheld from the papers yesterday in order that it might be conveyed first and in person to the representatives of the Pacific Mail Company. Panama is willing to buy such of the Pacific Mail Company's steamers as are suitable for the purpose, and pay for them, and we suppose for the good will of the business. If the Pacific Mail Company does not care to sell out this portion of its effects and business, the Panama Company will have to hire or build steamers for itself, in which case the services of the committee, which includes two well-known steamboat men, will be more laborious than if the boats of the Pacific Mail can be bought. The Pacific Mail in that case can have its business across the Isthmus transacted by the Panama Railway on fair and friendly terms. In Wall street this action is variously regarded, many thinking it only a stock-jobbing scheme to depress Pacific Mail.

NEW YORK. Oct. 28.—The yachts "Dauntless" Jas. Gordon Bennett, owner, and "Resolute," owned by Rufus Hatch, started yesterday morning about 5.30, on their race to Cape May, and return. The "Dauntless" rounded Sandy Hook light ship at 11:57 to-day, winning the race. The "Resolute" was not in sight at 12:45.

California.

SAN FRANCISCO, Oct. 29.—Thomas Maguire announces that the entire proceeds of his two theaters on monday evening will be devoted to the relief of the sufferers by the Virginia City fire.

The memoranda of the Panama steamer "Montana, says a bark of about 600 tons, supposed to be the "Martin," of Boston, dismasted and water-logged, drifted on the beach about seventeen miles northward of Manzanillo on the 15th. The bark was loaded with Oregon pine. The cabin was searched. No papers of any kind were found. The capstan was marked "The Martin, of Boston." The main deck was covered with barnacles.

THE QUEEN AT INVERARY.—Her Majesty is still at Inverary Castle, the seat of the Duke of Argyll. She was received in Highland state on her arrival by the head of the Clan Campbell, who knelt before her on one knee and kissed her hand before proceeding by her Majesty's side to the staircase where the Duchess was waiting to welcome her. The "Court Circular" states that her Majesty has driven out every day, accompanied by Princess Louise, Princess Beatrice, and the Duchess of Argyll. A telegram from Inverary, dated last night, says:—At noon to-day the Queen, accompanied by her two daughters, walked from the castle in the direction of the Cherry Park, where the dairy and stables are situated. After a short inspection of the latter the party proceeded towards Matland, and the Duke's extensive gardens there. Some time was spent in examining the vineries and conservatories. The royal party later in the day drove up to Glenar and visited a number of interesting spots on the banks of the river. To-night a grand assembly was held at the Castle Pavilion. Her Majesty and the Princesses Louise and Beatrice arrived shortly after ten, and were received with cheers. The Duke and Duchess of Argyll also accompanied the Queen.

Girls do not reach their maturity until twenty five, yet at sixteen they are wives and mothers all over the land, robbed of all the rights and freedom of children in marriage, crippled in growth and development. The vital forces needed to build up a vigorous and healthy womanhood are sapped and perverted from their legitimate channels in the body overtaxed, the mind loses its tone, and settles down into a gloomy discontent that enfeebles the whole moral being. The feeble mother brings forth feeble sons; the sad mother, those with morbid appetites. The constant demand of stimulants among men is the result of the morbid conditions of their mothers. Healthy, happy, vigorous womanhood would do more for the cause of temperance than any prohibitory or license laws possibly can. When woman by the observance of the laws of life and health, is restored to her normal condition, maternity will not be a period of weakness, but added power. With that high preparation of body and soul to which I have referred men and women of sound mind and affection might calculate with certainty on a happy home, with healthy children gathering round their fireside. One of the saddest features of woman's present condition is her idea that she is cursed of Heaven in her motherhood; that it is one of nature's necessities that she should suffer through the period of maternity. It is because we ignorantly violate so many laws of our being that it is so to-day.

A NEW ADDING PENCIL.—Two gentlemen of Nevada have invented a new adding pencil which they claim will materially lighten the labors of accountants, lessen the liability to mistakes, and save the trouble of retracing work that has been suspended owing to interruptions. The pencil is a miniature calculating machine, and by pressing the point on a figure until an index reaches the same digit on a scale, a cylinder within the handle is turned round so as to render visible through a longitudinal slot the effect of this figure on the sum total. Pressing the point to the figure is all that is required to ensure the correctness of the result, and speed in doing this can be soon acquired that will render this process quicker that the ordinary one. Should the accountant be interrupted, or desire to stop work in the course of adding up a long column, he has only to take up his work again where he left off. The pencil is not too large for handy use, and may be found of great advantage to those dealing with large quantities of figures.

THE twelfth successive grain crop grown by Mr. Prout on his farm near Sawbridgeworth, England, has been sold at auction. Two hundred acres of wheat averaged £19 12s. 6., which is five shillings an acre under last year's price. One hundred and thirty acres of barley fetched £9 1s 8d. per acre; forty acres of oats averaged £11 3s 9d., fifty-two acres of clover hay, twice cut, brought £15 17s. 10. per acre. The total sum realized for the produce as it grows on 427 acres is £4,630 17s. 6d. The previous day Mr. Middleditch's fifth annual sale of grain crops on the root, and grown in successive years was held. Wheat ranged from £9 to £11 5s. per acre, oats from £6 to £11 7s. 6d., and winter beans from £8 to £10—the purchasers in each case harvesting the crops.

TORONTO, Oct. 18.—The *Globe* says that the Grand Trunk report says that an improvement in traffic is anticipated. The worst is said to have been reached in receipts, and economy will be strictly practised in the future working of the line. There will be no dividend this half year on the preference capital.

The Ministerial Crisis.

The organs of the Government may twist and turn the result of the recent elections; belittle, revile and threaten the People's representatives; make the very heavens discordant with their shrill cries; but they can never, never succeed in making the people of Columbia believe that victory perches on their banners, and that the popular verdict has not been against a continuance of the system of misrule and extravagance that has prevailed in Governmental affairs for the last three years. The most casual observer of political events knows that a Ministerial crisis is at hand—knows that at this moment the James Bay magnates are eyeing each other askance and wondering which of the quartette is to be the thrown overboard to appease the popular whale. Now, we are among the many who believe that the throwing overboard of this or that Minister will not avail in the present crisis. The battle, remember, has been waged against the policy, not the *personnel*, of the Ministry. And their policy has been condemned in the defeat of every candidate who promised a thick-and-thin support to Government measures. The removal of one, two or three Ministers and the substitution of new men will not satisfy the country, which demands a complete change—a sweeping alteration—a thorough Reform. We are convinced that no half measures will satisfy the People. No good can be effected by a partial change in the *personnel* of the Cabinet, because the policy must remain unchanged—the thing the country least desires. We ventured on Sunday to point out to the Ministry the only course that patriotism left open to them, viz: to imitate the illustrious example of Gladstone and place their resignations in the hands of the Lieut.-Governor without further bother. By the adoption of this course they would satisfy the people that of the two "Pa"—patriotism and portfolios—they preferred the former. The organ, however, gave the Province distinctly to understand, yesterday, that the Ministry will hold on to their seats like leeches to a dead horse. Whilst conceding a defeat the organ consoles itself with the reflection (erroneous, of course,) that the constituencies who sent in Government supporters are numerically stronger than those that sent in Oppositionists. Admitting, for the sake of argument, such to be the case, who is to blame? Certainly not the Opposition They implored the Government to bring down a scheme for the redistribution of the seats and to secure representation by population. If Kootenay with 32 votes has two members, and Victoria with 800 votes but four, is her case any worse than that of Cariboo, which has three members, whilst Nanaimo has but one, or Cassiar, with 800 voters, with no representation at all! These absurdities were pointed out to the Government in the House last session, and a bill was introduced by a Reform member to cure it; but the Government, which has always given a factitious opposition to every measure that pointed to Reform, succeeded, with the aid of their Ducks, Booths, Cogans, Hugheses, Barnstons, and Robinsons, in throwing it out. As the seats held by all but one of these gentlemen are now filled with Reformers, it is not all likely that the Government will ever be in a position to play that game again, and we only mention the fact to show that the Government are alone to blame for the existence of the anomaly now complained of by themselves. The objection of the organs, therefore, falls to the ground, and all the people have to discuss is the Ministerial crisis which is upon the country. The decision of the electors has been a distinct vote of want of confidence in the Ministry. Any attempt to make it otherwise only excites popular contempt. That an attempt will be made to reconstruct the sinking ship is extremely probable. We have heard Ministerial supporters — elected members, too—say that Beaven, Ash and Armstrong, having no followers, must retire. But, then, if the Premier remains his aggressive, extravagant and corrupt policy—the very thing the country has denounced—will be copied, as the Chinese copied the ship, dry-rot and all, and the great, momentous questions that should have been settled months ago will continue to be festering sores in the body-politic. Every one knows that the verdict at the polls has been adverse to the Government. The People know it; the Ministry know it; and any attempt to rob the electors of their victory by patching up the crazy old craft that is drifting to sea without rudder, sails or crew, will meet with a stern resistance. No doubt the Ministry will die hard. Their enormous salaries are almost as dear to them as their lives, and they will not relinquish either without a severe struggle. But no great Reform was ever accomplished without hard work. It required a strong effort to relieve the woman of the seven devils; but they were put away at last. And so it will be with the Tory Ministry of this Province. They will struggle hard; but they will have to go!

Mechanics' Institute Meeting.

The annual meeting of the members of this Institution for the purpose of hearing the official reports and electing officers for the ensuing year, was called to order by the President, Mr. A. McLean, about 8 o'clock yesterday evening.

After a short opening speech the President called on the Secretary, Mr. H. K. Woods, to read the minutes of the last meeting, and these having been adopted the following report for the past year was read by the Secretary;—

To the Subscribers of the Mechanics Literary Institute.

GENTLEMAN:—In presenting their annual report to you, your committee desire to congratulate you upon the present state of the Institute, which has not, for many years, been in such a condition. Although the number of subscribers at date shows a slight falling off from that of last year, yet the average number for the whole year as shown by the subscriptions received proved that this falling off is only transient, the number of subscribers at date being 175, and at the close of last year, 189; while the average for the present year has been 141, against 140 for last year.

The Library has during this year been increased by 250 volumes purchased at a cost of about $300, and also through the kindness of Messrs. Findlay, Brodie, Hett and Planta, and Capt. Pamphlet been enriched with some valuable works. The latest edition of the "Encyclopædia Brittanica" has also been purchased at the very small cost of $40. The Library now contains upwards of 2,500 volumes, is well assorted, and in very good condition.

The thanks of the Institute are due to Prof. Richardson and Mr. F. J. Roscoe, M. P., for gifts to the museum, which year by year is steadily increasing in size and interest.

It will be remembered that about two years ago Dr. Tolmie generously gave two acres of land near his own house to be disposed of for the benefit of the Institute, the proceeds to be applied towards paying the expenses of fitting up and purchasing the premises we now occupy. Your committee accordingly decided to raffle the land for $750, viz., 750 chances at $1 each. The raffle took place on Wednesday evening the 27th ulto., when four hundred and sixty-two tickets only had been sold, leaving two hundred and eighty-eight, which were held for the benefit of the Institute, and among these was the winning number.

Hearing that dissatisfaction existed at the action of the committee in their holding the unsold tickets. Your Committee, although they do not see how in justice to the Institute they could have acted otherwise than they did, desiring to meet what they considered the wishes of the subscribers in every possible way, decided to raffle the land for the value of the tickets remaining unsold, offering the new tickets first to the subscribers to the original lottery, afterwards to the general public, and hope that their action will receive your approval, and that the incoming committee will be able to pay off at least $400 from the debt.

A reference to the financial statement will show some interesting facts, among which may be reckoned the large amount of revenue derived from the rent of the hall, which is more than three times as much as that received last year, and more than past the interest on the debt this making the purchase of these premises a most profitable undertaking to us. Through the exertions of the President the Government grant was this year increased from three hundred to five hundred dollars. The loan which the former committee was obliged to contract at the Bank of British Columbia has been paid off out of the general income of the Institute, and your committee assure you that their constant desire has been to keep the expenses down to the lowest possible limit compatible with efficiency.

During the year considerable improvementi have been made in the building and furniture; the hall has been reseated and many things have been done to add to the comfort and attractiveness of the Institute.

The report was adopted as read. The next business on hand was the election of officers for the ensuing year.

Mr. McLean was proposed for President, but declined, and Mr. Fell having been proposed and seconded, was elevated to the chair by acclamation, and took his seat amidst great applause. After a short speech in which he said he regretted that there had not been a larger attendance, and a harder contest for the position of President, and paid a compliment to the retiring President which was received with cheers, he invited the meeting to proceed to the next business which was the election of a Secretary; and Mr. H. K. Woods was selected for the office and duly returned thanks, Mr. R. Williams was reelected as treasurer, and the following gentlemen were elected as committee men: A. McLean, Alex. Wilson, Wm. Wilson, Thos. Allsop, Thos. Russell, and Jas. Raymur.

A vote of thanks was passed to the retiring officers.

Mr. R. Williams returned thanks for the newly-elected committeemen. Mr. Hy. Woods moved a vote of thanks to the Orchestra of the Institute, and Mr. Vinter responded and declared on behalf of his comrades that he was sure they would all be happy to play at any concert for the Institute during the coming winter.

Mr. Allsop proposed a vote of thanks to Dr. Tolmie for his munificent grant of land, which was carried with acclamation.

Mr. W. K. Bull then introduced the subject of the late raffle respecting which he said there had been great dissatisfaction expressed. Some debate took place on this question, but votes endorsing the action of the late committee on the matter and leaving the future management of the business connected with the raffle entirely in the hands of the newly elected members were unanimously passed, and after a few more unimportant matters had been discussed the meeting adjourned.

HORSE TAMING.—Messrs. Rockwell and Hurlburt gave a surprising exhibition yesterday. They appeared on the streets with two horses attached to a double buggy and one horse to a single buggy, and drove round without the aid of reins, the horses being directed by the motion of a whip held in the driver's hands. Afterwards, in a tent at the circus grounds, they produced a trained horse called "Mazeppa," which did everything but talk. A simple word of command from the teacher was sufficient to cause the animal to perform the most difficult task ever assigned to a horse. The training of this horse is perfection. In the evening two trained greyhounds were exhibited and showed great intelligence. Several tricky animals were taken in hand and subdued, the leading characteristics of the teacher's practice being firmness and gentleness. A class was formed to whom lessons in managing horses will be imparted. If the visit of Messrs. Rockwell and Hurlburt has no other effect than to teach man how to treat that noble animal the horse properly, it will not have been in vain. Another lecture will be given at one o'clock to-day.

MISS FANNIE MARSTON.—A few persons were present at the rehearsal by Miss Fannie Marston at the Theatre Royal last evening. The lady sang several difficult pieces in a voice which for brilliancy and compass has never been equalled in this city, if on the coast. The voice is a young, fresh and delightful soprano; every word is distinct and the style of delivery is impassioned and captivating. Miss Marston will be assisted this evening by Mr. Geo. Dalton, tenor and comic vocalist, his first appearance here; Mr. F. F. Morse, baritone, first appearance here; and Prof. Digby Palmer. A fine programme will be offered. Miss Marston will sing, in addition to two operatic selections and a waltz, "Comin' Thro' the Rye," "Kathleen Mavourneen," "Last Rose of Summer," and two old English duets with Mr. Morse. We advise all our readers to attend. The boxoffice will be open at 10 o'clock this morning at the Theatre.

THE barque Blanche, Capt. Bambrough, with a cargo of grain from Portland, was brought into Esquimalt yesterday by the tug Beaver in a disabled condition. It appears that during the heavy gale a few days back, being then off the mouth of the Columbia River, a part of the cargo shifted and threw the vessel on her beam ends. In order to right her the crew were forced to cut away the main and mizen top masts and in this condition she was picked up in the Straits yesterday morning. Capt. Bambrough reports seeing another barque apparently in distress during the gale. She was heavily laden and remained in sight for nearly two hours during the worst of the blow; but the Blanche was unable to communicate with her and cannot tell exactly when or how she disappeared. This vessel is supposed to be one of the steel rail ships now overdue from Liverpool.

PASSENGERS BOOKED per steamship Pacific up to 5:30 p. m. yesterday:—Isaac Foster, J. W. Doyle, J. H. Sullivan, John Kennedy, S. Nicholson, Wm. Powell, F. Garesche, Miss A. Reynolds, Miss F. Go to the Marston concert to-night and hear "Comin' thro' the Rye," "Last Rose of Summer," "Annie Laurie," "Kathleen Mavourneen," "What are the Wild Waves Saying," etc., etc.

THE *Colonist* states that there are 1,066 buildings for dwelling and business purposes in Victoria; but it forgets to mention the unfortunate fact that from one-third to one-half of the business and dwelling houses in that once thriving city are now tenantless structures.—*Seattle intelligencer.*

Some of the numerous families now "hunting" houses in Victoria would be glad to have the *Intelligencer* point out to them the "tenantless structures." It is a fact that so crowded is the town that hencoops, even, are in demand as dwellings and all the available mechanics are fully employed and more are wanted. Can our Seattle contemporary send along a few of his idle hands?

THE steamer Enterprise left yesterday morning at 7 o'clock as per advertisement for New Westminster. Among her passengers were, Dr. Trimble, Capt. J. Irving, Capt. Raymur, Mr. Oppenheimer and wife, Mrs. Barnard, and Messrs. Courtney and R. McLellan. She had a good freight, several horses and wagons for the Thompson road party, and the mails and express.

Go and get your seats reserved for the Marston concert to-night. Box office open from 10 a.m. to 4 p. m. at the Theater.

THE steamer North Pacific cast loose about 10 a. m. yesterday for the Sound. She had a large number of passengers, Wells-Fargo's express and the mails.

THE steamer California will not leave for Portland till Friday morning. She is now undergoing some slight repairs at Spratt's to the pins which fasten the screw to the shaft.

Washington Territory.

[Seattle Intelligencer.]

On Sunday night last some thieves broke into the business place of T. P. Freeman, whose stock of goods was pretty much destroyed by fire last summer, and stole therefrom goods of various kinds, aggregating in value the sum of about $300.

Mr. James McCann, a native of Glasgow, Scotland, died in this city at Dr. Weed's private hospital, after a long illness, on Wednesday last. The deceased was an old resident on the Sound, and for many years, and until six months past, was in the employ of the Port Madison Mill Company as an engineer upon their steamers. A few months since he had quite a legacy left him in the old country, and at the time of his death was in possession of ample means.

On Wednesday last, Mr. Wm. C. Wood, heretofore for a long time in the employ of the Seattle Coal Company, was taken before Judge York, of the Probate Court, and, after an examination by medical experts, was pronounced insane and ordered to be sent to the Steilacoom Asylum, whether he was afterwards conveyed by one of the sheriff's deputies.

Go to the Marston concert to-night and hear George Dalton the celebrated comic vocalist in his inimitable comic songs.

THE MONEY BAGS.—Bewailing the near approach of a Ministerial change the *Standard* says: "All the Reformers want is to get hold of the money-bags." There was once a young man who laid violent siege to a young lady's heart. Rallied one day for his devotion to the lady by a number of friends, he exclaimed, "Well, boys, all I am after is the old man's pocket-book." The next evening the young lady met him at the door with flashing eyes. "Sir," "as you have stated that all you are after is my father's pocket-book, here it is!" and as she slammed the door in his face she threw an *empty* pocket-book at his feet. Reader, the Provincial money-bags that the Reformers are said to covet, are in the same condition as that pocket-book. *They are empty!*

"WARNING TO IRISHMEN."—The Government organ has commenced to threaten; and publishes what it is pleased to style a "warning to the seven Irish members," if they fail to vote right in the House. Matters must be looking desperate for our friends when they resort to threats to bolster up their cause.

THE public and the press pronounce Miss Marston to have the most powerful voice (with the greatest compass) of any singer who has ever appeared on this coast.

U. H. & L. Co.—At a meeting of the U. H. & L. Co., held last evening, the following officers were elected. W. H. Huxtable, Foreman (re-elected); J. Thistleton, 1st Assistant; R. McKenzie, 2nd Assistant; G. W. Cohen, Secretary (re-elected); E. Grancini, Treasurer (re-elected); Jos. Smith, Steward.

THE steamer Maude left the wharf for Nanaimo about 7:15 a. m. yesterday, being detained getting some horses, etc., on at the last moment. She had about 20 passengers, and 10 head of cattle and sheep, a heavy freight and the mails.

DON'T fail to hear Miss Fannie Marston to-night; she is the most popular songstress since the days of Jenny Lind and Kate Hayes.

DISMANTLING.— It has been found necessary after a survey to dismantle the ship Nation's Hope and throw out her ballast, both of which operations are now in progress. The sand has silted up round her and she is leaking badly.

THE proprietorship of the Oriental Restaurant on Yates street has again changed hands. Mr E. J. Salmon, the new owner, intends to run the institution in first class style and expects to have a host of friends to see him do it.

Go and hear Miss Marston and Mr. Morse sing a number of the old English duets to-night.

Terrible Story from the South Pacific.

CHICAGO, Oct. 29.— The "Transcript's" Boston special says: A year ago last February the bark James, of Boston, sailed from New South Wales in direction of the Auckland Islands, a group which lies in the South Pacific ocean, near New Zealand. A few days later the Boston bark Maria H. Long, and an English bark, name unknown, followed on the same course. No tidings of the Boston vessels were received in this city till yesterday, when Captain Bremer, of Biddleford, Mo., of the bark Marathon, of New York, returning from a voyage round the world, brought back a terrible story regarding them. At one of the ports at which he stopped he had fallen in with a sailor or some one who knew him who purported to be sole survivor of the three crews. Their vessel, he said, had become becalmed in the vicinity of Auckland Islands, and laid there together several days. They were boarded at night by cannibals, who came in large numbers and overpowered the crews, plundered the ship and scuttled them. The men were carried prisoners to the shore and furnished food for the horrible feast of their captors. No particulars of the fight, or of the survivor's escape were obtained, but the facts are pretty well authenticated, and the long absence of the vessels furnishes good ground for believing that the story may be true.

NEW YORK, Nov. 1.—A letter from Russia states that the Government is engaged in a vigorous raid amongst socialist agitators. Arrests have been made at numerous places. In one village, near Moscow, 30 workingmen were seized by the police. The police are reported under the impression that they have struck a blow at the stronghold and centre of the movement, which will put an effectual stop to its further spread.

WASHINGTON, Nov. 1.—Several pastors of this city of different denominations, who were apprehensive that the government was about to abandon the peace policy towards the Indians, called on the President to-day to express their conviction that such a course would greatly disappoint Christian people all over the country and be a blow to the cause of Christianity throughout the world. The President, with great promptness and precision, replied that he did not regard the peace policy as a failure, and it not only would not be abandoned while he occupied that place but it was his hope that during his administration it would be so firmly established as to become the necessary policy of his successor; but in that he might possibly be mistaken.

NEW YORK, Nov. 1.-Evening 'Post's' Washington special says Pres. Grant has ordered the removal of the postmaster at Ogden, Utah, who is a mormon but not a polygamist. This is the first step towards removal of mormons holding Federal offices in Utah.

ROME, Oct. 26.—It is stated that some German bishops recently asked advice of the Vatican as to what line of conduct they should pursue so as to terminate their conflict with the German Government Cardinal Antonelli consequently sent a telegram to the German bishops asking for their opinion concerning the means of arriving at an understanding between the government and the episcopacy.

LONDON, Oct. 27.—A special telegram from Paris announces that the government is prosecuting the "Echo de Ajaccio," M. Rouher's official organ, for stating that the constitution is an uncertain regime, established by a group of persons without authority.

The screw sloop of war Albatross has been ordered to proceed to Panama to protect British interests there.

The British admiral in the Mediteraneau has been instructed to take action relative to the recent attacks upon English merchantmen by Spanish pirates.

It is thought the government will prosecute the consignees of arms shipped hence to China during the recent negotiations. Several cargoes are now en route.

SALT LAKE, Oct. 29.—The decision of the court in the matter of alimony 'pendente lite' Young vs. Young was delivered in the third district court this morning by Judge Boreman. The court previously ordered that defendant should appear personally in court. When the decision was rendered the affidavits of two physicians were sworn to stating that the defendant was scarcely able to be out, that it was dangerous for him to leave his room, and for that reason he asked to be excused. The court gave a brief history of the case, and at the close spoke as follows:—"The order of this case granting alimony 'pendente lite' was not improperly made, and stands unrevoked and not obeyed. No good reason is given for its not being obeyed. I am asked to enforce it. A court, in order to maintain its dignity, self-respect and authority, cannot allow its orders to be repudiated, disregarded or denied. It is therefore the judgment of the court that the defendant be imprisoned until the $9,500 and costs of suit are paid, or released by the court, in accordance with the above order. Marshal Maxwell arrested Brigham Young this afternoon, at the latter's residence, where he now remains in custody of the marshal.

PANAMA, Oct. 16.—The National government overturned the State government on the 12th inst., and imprisoned President Arozmena and several of his subordinates. The change was effected without disorder of any kind. Greytown had been attacked by bands of men, and the governor killed. Troops were sent to the relief of the city.

NEW YORK, Oct. 27.—The London *Times* announces the safe arrival at Brighton of an aquarium of two sea lions from California, and says they take food with avidity, and though apparently quiet they are evidently ferocious and treacherous.

Advices from Valparaiso announce that the American ship Great Western, from San Francisco August 12th, for Queenstown, had arrived leaky, and had jettied a part of her cargo.

The Moody and Sankey Opening at Brooklyn.

NEW YORK, Oct. 24.—The first of the Moody and Sankey revival services was held at Brooklyn rink this morning. Fully 5,000 persons were waiting for the doors to be opened, and when services commenced the building was filled throughout. Moody taking his place on the rostrum, at the edge of a large platform containing a chorus of 250, opened services by announcing the hymn commencing "Rejoice and be glad, the Redeemer has come," which was given with imposing effect by the chorus and congregation. Rev. Dr. Buddington then prayed at considerable length and fervor, and deeply moved the people. He prayed that as the tribes of Israel were now assembled before the Lord, He would signalize His acceptance of their homage and desire to glorify Him, and that the power of God would rest upon this assemblage with grace in every heart for our country's sake and for the world's sake. Sankey called on the people to sing heartily hymn 27, "Lord, I hear of showers of blessings." The singing by nearly 10,000 voices was magnificent. Sankey accompanied on the harmonium. Moody next read from 13 Numbers, the account of sending spies to the promised land, and the discouragement of the people at their report of the stature of the inhabitants. Moody delivered a discourse on the text as read. He spoke in a conversational way, sometimes humorous, sometimes impassioned, and always rapidly. He insisted that God had his own time for revivals, that the only obstacle to them was unbelief within the church, He compared unbelievers and doubters to terrified spies, and courageous believers to Caleb and Joshua, who relied upon goodness and the power of God. The time was come, he said, and if they only willed it they might go and take the promised land. In conclusion, he advised that all dissensions be abandoned and all church barriers, and every one devote himself heartily to work. It was then announced that every night of the week except Saturday there would be service at 7 o'clock at the rink and every morning a prayer meeting at Talmadge's tabernacle. Among those on the platform were Rev. Dr. Cuyler, Rev. Dr. Duryea, Rev. Dr. Prime, Rev. Dr. Buddington, Rev. E. J. Haines, Rev. A. S. Hunt and George H. Stuart, the last named from Philadelphia. An afternoon service was held at the rink at 4 o'clock. The building was packed with people and at least 5,000 who had come were unable to obtain admittance. Two churches in the immediate neighborhood had been thrown open and Mr. Sankey visited both of them and sang. In the rink there were as many as in the morning. A large gathering of clergymen were on the platform, among them Rev. Dr. Buddington, Rev. Mr. Stewart and Rev. Dewitt Talmadge.

A Governor at a Discount.

FORT WRANGEL, Oct. 1st, 1875.

EDITOR COLONIST:—A word about ex-Gov. D——. It is remembered that Mr. D—— was Dept. Collector of U. S. Customs at Fort Wrangel last fall, and in December he got a broad hint from his superior officer at Sitka to resign his office, which he very prudently did. Before making known what had happened he borrowed what little money he could conveniently from his friends, and in the meantime purchased a claim in Cassiar, borrowing the money for the first instalment from a well-known packer of Cassiar After which Mr. D. tied up his blankets and made tracks for the Gussie Telfair which was in the harbour and about to sail for Portland. He was pursued by one of his creditors, who at the last moment found out his little game; but of no avail. He was quite capable of taking all the abuse that was showered on him. Another of his creditors happened to be a passenger on his way down, and when at Nanaimo a capias was talked of, and Mr. D. agreed to arrange matters satisfactorily at Victoria, which, it is said, he did by borrowing the money from another party to pay the first—robbing Peter to pay Paul. When the North Pacific sailed for Port Townsend Mr. D. took passage in her for Fort Vancouver.

In conclusion, he had the cheek to return this spring to go to Cassiar to work the claim, and his first move was an attempt to jump one of his partner's interests. In that he failed Johnny Bull was this time a little too smart for him. His next move was successful. He sold out; pocketed the cash, and left before the second instalment came down. No doubt Mr D. is figuring in some other clime; but he had better not show his nose up North again. It might get frostbitten.

FRENCH MEDICINES

PREPARED BY

GRIMAULT & CO.,

PHARMACEUTICAL CHEMISTS,

8, RUE VIVIENNE,

PARIS.

OF all the medicines offered to the public for many years past, none have met with such favorable reception, or been so generally approved by the Medical Profession, as those prepared by Grimault and Co.

The model laboratories of this firm, situated at Neuilly-sur Seine, and managed by Dr. Leconte, Professor in the Faculty of Medicine, ex-Pharmacist of the Hospitals of Paris, and formerly Assistant of Dr. Claude Bernard, Professor of Physiology at the College of France, offer guarantees to be found in no other establishment.

NURSING---PREGNANCY---EXHAUSTION.

Busart's Lactophosphate of Lime Preparations.

The preparations having Lactophosphate of Lime at their base, known as Dusart's Wine and Syrup are the most valuable tonic restoratives known. They promote the formation and the nutrition of tissues, render nurses' milk more rich and plentiful, and aid the formation of the infant during pregnancy. They stimulate the appetite, agree with feeble persons, convalescents, old people, and especially with children to counteract the tendency to rickets.

GRIMAULT & CO'S

Syrup of Hypophosphite of Lime.

An excellent remedy for all affections of the chest, it relieves coughs, effectually prevents nocturnal perspiration, and restores the patient's strength. This syrup is the only one which, ever since 1857, has invariably been attended with satisfactory results—a fact due to the purity of the hypophosphite employed. Be sure to observe that it bears the signature of Grimault and Co., on bottles of an oval shape, the syrup being always of a rose colour.

GRIMAULT & CO'S

Matico Injection and Capsules.

Composed of the essence extracted from the plant so called, they have been constantly employed with the most brilliant success in a certain class of contagious disease.

They combine extraordinary efficacy with the advantage of never causing nausea, eructations, or pains in the stomach, as do the gelatinous capsules which contain Balsam of Copahu in a liquid state; or the strictures which result from the use of injections having a metalic basis.

Are the most congenial purgative yet effected. Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organ into action; and they impart health and tone to the whole being. They cure not only the every day complaints of everybody, but formidable and dangerous diseases. Most skilful physicians, most eminent clergymen, and our best citizens send certificates of cures performed and of great benefits they have derived from these Pills. They are the best physic for children, because mild and effectual Being sugar-coated, they are easy to take; and being purely vegetable, they are entirely harmless.
